Niland Family

Niland Company poles are designed with maximum strength resistance to extreme wind loads but also functions with a wholesome selection of arms and luminaires. No matter the height, eight or twenty-eight feet, each pole is manufactured to the highest structural integrity.

Features:

- ~ 5" deep fluted steel or aluminum shaft circumferentially welded around the inside of the base for ***uncompromised structural integrity.***
- ~ Exterior transition ring to cast into the top of the base welded and ground smooth to mirror the design of shaft for ***unitized construction.***
- ~ ***Heavy cast anchorage plate.*** Four(4) L-shape anchor bolts to be used for anchoring. Optional direct burial.
- ~ ***Historically accurate designs*** with heavy cast iron or aluminum at a minimum wall thickness of .250".

roadway poles

MODEL#:	N24	N20
BASE HEIGHT:	27 INCHES	22.5 INCHES
BASE DIA:	24 INCHES - CLAMSHELL	20 INCHES - CLAMSHELL
SHAFT DIA:	7.5 - 4.5 INCHES TAPERED FLUTED	7.5 - 4.5 INCHES TAPERED FLUTED
MATERIAL:	STEEL/CAST IRON	STEEL/CAST IRON

Pole Heights Variable Up to 28 Feet For Roadway Usage.

Shaft Options

FLUTED SMOOTH TAPERED

All roadway shafts are tapered steel with 7.5 inch diameter from bottom to 4.5 inch diameter at top and clamshell base.

uncompromised

All bases are Cast Iron with minimum wall thickness of .1875 inch. Base casting has an internal sleeve of up to 25 inches deep. Shaft will be seated into the base sleeve and circumferentially welded around the inside of the base for uncompromised structural intergity. All exterior welds ground smooth.

pedestrian poles

MODEL#:	N20	N19	N18	N17	N12
BASE HEIGHT:	22.5 INCHES	17 INCHES	18.5 INCHES	22 INCHES	16.75 INCHES
BASE DIA:	20 INCHES	19 INCHES	18 INCHES	17 INCHES	12 INCHES
SHAFT DIA:	5 INCHES	5 INCHES	5 INCHES	5 INCHES	4 INCHES
MATERIAL:	CAST ALUMINUM				

Pole Heights Variable Up to 16 Feet For Pedestrian Usage.

Shaft Options

FLUTED SMOOTH TAPERED

All pedestrian shafts are 4 inch or 5 inch diameters. Tapered shafts are 6 inch diameter from bottom to 3 inch diameter at top.

uncompromised

All bases are Cast Aluminum with minimum wall thickness of .250 inch. Base casting has an internal sleeve of up to 25 inches deep. Shaft will be seated into the base sleeve and circumferentially welded around the inside of the base for uncompromised structural integrity. All exterior welds ground smooth.

roadway arms

pedestrian arms

roadway luminaires

MODEL#:	SZ-FLAT	BC-17-FLAT	BC-20-FLAT	RS-BC-26-FLAT	BA-PEN-HYD-HOR
WIDEST DIA:	20 INCHES	17 INCHES	20 INCHES	25.875 INCHES	19.125 INCHES
HEIGHT:	16.25 INCHES	19.375 INCHES	22 INCHES	19.75 INCHES	37.5 INCHES

pedestrian luminaires

MODEL#:	BA-CON-HYD-HOR	MS-LEX-424-CON-E	CR-LEX-424-CON-S	JT-HYD-HOR	AP-HYD-HOR
WIDEST DIA:	19.125 INCHES	19 INCHES	19 INCHES	23 INCHES	24 INCHES
HEIGHT:	33.5 INCHES	42.125 INCHES	40 INCHES	41.25 INCHES	36 INCHES

Lamp Access

Quick disconnect terminals between the lamp and ballast allow for safe removal of the lamp. Tool-free quarter-turn of the Twist 'N' Seal base makes for easy relamping with a sealed optics chamber.

Remote Ballast

Ballast is easily accessed by removing the bird plate and the unitized ballast tray. Quick disconnect terminals are again used to ensure safe ballast maintenance.

ballast/lamp

Model	Description
70HPS	70 watt high pressure sodium; use a medium base, clear ED-17 lamp.
100HPS	100 watt high pressure sodium; use a medium base, clear ED-17 lamp.
150HPS	150 watt high pressure sodium; use a medium base, clear ED-17 lamp.
50MH	50 watt metal halide; use a medium base, clear ED-17 lamp.
70MH	70 watt metal halide; use medium base, clear ED-17 lamp.
70MHT6	70 watt metal halide; use a G12 base, T-6 ceramic MH lamp.
100MH	100 watt metal halide; use medium base, clear ED-17 lamp.
150MH	150 watt metal halide; use medium base, clear ED-17 lamp.
150MHT6	150 watt metal halide; use G12 base, T-6 ceramic MH lamp.
175MH	175 watt metal halide; use medium base, clear ED-17 lamp.
CF	Compact Fluorescent, electronic ballast; Use 4-pin 26,32 or 42 watt lamp.

voltage

120 / 208 / 240
/ 277 / 347* / 480*

*Not available for QL lamp.

Multitap ballast also available.

**Please specify wattage and voltage upon ordering.

Lamps (bulbs) not included in packages.

QL Induction Lamp 50,000 HOURS AVERAGE LIFE

55, 85 and 165 Watt Systems
Offering Electrodeless Technology with
a 50,000 Hours Rated Average Life!

Features:

- Ultra Long Life
- Crisp White Light
- No Color Shift
- High Reliability
- Operates in Hot & Cold Environments
- Low EMI
- High Lumen Output

With QL Induction Lighting,
the grass IS greener!

High Power LED Units OVER 100,000 HOURS AVERAGE LIFE

Retrofits for Existing Fixtures
or As A Complete Unit

Features:

- Increased Visual Acuity
- Minimal Energy Consumption
- Dark Sky Friendly
- Decreased Maintenance
- Instant "On"
- Wireless Access and Dimming Capabilities
- 40ft Maximum Mounting Height
- Lighting Detection System

Without the use of harmful mercury that traditional HID lamps use, the grass is not only greener, **it's growing!**

light distribution options

Horizontal Hydro-Formed Reflector (HYD-HOR)

Type III hydro-formed reflector shield. Full cut-off optics with Twist 'N' Seal mogul base. Dark Sky compliant with fully sealed reflector housing.

Louver Reflector (LOUVER)

Spun aluminum with mirror finish. Assists in reflecting light downward.

Borosilicate Refractor (BOR)

Glass with high resistance to intense amounts of heat for long periods of time. Type III or V light distribution.

photometric data - BA-CON-HYD-HOR 150HPS

The values below are initial footcandles. Decrease values to justify light losses due to voltage, temperature and atmospheric variations which may affect light output. All testing performed by a certified independent laboratory. Photometry is available in IES formatted files on CD-ROM and website at www.nilandco.com or call your local representative.

accessories

Banner Arms (BAN)

All banner arms fabricated with 24-inch rounded aluminum shaft at 1-inch diameter. Clamped around diameter of 4 or 5 inch pole. Double banner arms also available.

Planter Arms (PA)

All planter arms fabricated with aluminum at 28 inch height and 24 inch length. Clamped around diameter of 4 inch or 5 inch pole. Double planter arms also available.

Flag Pole Holder (FLAG)

HOLDERS are available as clamp or bolt mount for 4 inch or 5 inch poles. Overall height is 4 inches and reach is 3 inches.

sign backers

POLE MOUNT: FRONT BACK

TOP MOUNT: FRONT

Stop Sign Backer (STOP)

Stop Signs available in 24 inch or 30 inch diameter. Fabricated in 356 cast aluminum with a thickness of .1875 inch and .375 inch offset lip. Can be clamped around 4 inch or 5 inch diameter pole. Bolt and top mount also available. Please specify mounting height upon ordering.

PAD-24-SQ-SC

PAD-24-SQ

24 Inch Square Paddle Sign Backer (PAD-24-SQ)

Square Street Sign Paddles available in 24 inch length by 4.5 inch height. Fabricated in 356 cast aluminum with a thickness of .1875 inch and .375 inch offset lip. Can be clamped around 4 inch or 5 inch diameter pole. Bolt mount also available. Please specify mounting height upon ordering. Optional decorative scroll available.

All signage does NOT include dacals.
Please specify heighth and width when ordering custom sizes.

POLE MOUNT: FRONT BACK

TOP MOUNT: FRONT

Yield Sign Backer (YIELD)

Yield Signs available in 28 inch or 30 inch height. Fabricated in 356 cast aluminum with a thickness of .1875 inch and .375 inch offset lip. Can be clamped around 4 inch or 5 inch diameter pole. Bolt and top mount also available. Please specify mounting height upon ordering.

PAD-24-OV

PAD-24-OV-FINIAL

PAD-36-OV

24 Inch Oval Paddle Sign Backer (PAD-24-OV or PAD-36-OV)

Oval Street Sign Paddles available in 24 inch length by 4.5 inch height or 36 inch length by 6 inch height. Fabricated in 356 cast aluminum with a thickness of .1875 inch and .375 inch offset lip. Can be clamped around 4 inch or 5 inch diameter pole. Bolt mount also available. Please specify mounting height upon ordering. Optional decorative finial available.
